## BLUE LIGHTING | Luzibérica

Luzibérica is a Portuguese company working in the professional lighting market since 1989. It features more than a product, but a whole range of services: lighting consultancy, lighting project and a regular follow-up of the work.

In this way, Luzibérica develops lighting solutions for indoor and outdoor through national and European brands represented by the company.

Currently, it has two own brands of lighting, developing the best solutions to suit the individual needs of each project.

BLUE LIGHTING – architectural lighting and B. HOTELS – hospitality lighting.

## CASTRO LIGHTING

Founded in 1978, Castro Lighting is today an international reference in the lighting market.

Their products are for those people, who are seeking a type of illumination that dominates the atmosphere, giving tones of elegance, majesty and enchantment. The exclusive range, the originality and the variety that characterize all projects from Castro Lighting, is produced with the highest quality, where the extreme care for detail is present in every step of the process. The production is based on an alliance between perfection and efficiency of the highest technology and the knowledge and experience of skilled artisans, resulting into a limited series and unique products.

They are present in the main events of lighting and decoration, making the brand known all over the world.

## CREATIVEMARY

CreativeMary is a decorative lighting brand based in Oporto, Portugal, that designs and manufactures exclusive artisanal lamps.

The brand's partnership with one of the most renowned glass crafting factories in Portugal helped revitalized the long tradition of the glass industry in the country. The team prides itself on producing completely hand-made artisanal lamps in all lighting categories: floor, table, wall and ceiling.

The company works with acclaimed interior designers, decorators, architects and stores around the world and other design professionals, bringing them our products as well as customized versions of our lamps to fit their specific project needs.

## CRISBASE

CRISBASE is located in the glass region of Marinha Grande, Portugal, a demarcated area with a history of more than 250 years, and it produces lighting fixtures and decorative glass.

Company's most important objective is to create products that are really distinct, unique, with character, breaking away from the dullness of purely industrial products.

All products are handmade by master glassblowers with a long family tradition of making glass. All production is made with artisan methods, from the manufacture of glass to the finishing process.

## ENVY | FB Internacional

Founded in 1988, FB Internacional is a lighting and home decoration accessories manufacturer with over 25 years of experience.

In 2009, FB Internacional decided to expand its international sales through new distribution ways. The new strategy was to create a brand and design a collection for the retail trade, to develop new collections dedicated to the hospitality and projects activities. In early 2010 the ENVY Community Trade Mark was born.

The ENVY's items are distributed in 31 countries worldwide.

## MOOD

Mood creates and produces lighting objects since 2001. Mood's brand is easily recognizable by its apparently simple structures and its efficient fittings, creating a sculptural effect.

Mood creates limited editions, from small to medium dimension as well as unique custom tailored lamps. Mood creates contextualized and unique lighting pieces, manufactured with detailed attention. The character of these pieces often creates a scenic effect, personalizing the atmosphere in public and private spaces.

Mood creates and produces lighting objects with high quality standards.

## PIXOM | Digitalab

PIXOM, a design brand of objects (tables, lamps, chairs, mobile phone accessories and tablets, etc) that explores parametric and algorithmic processes. And what it is? Variables being part of a model that can be easily modified, generating multiple solutions in a short time, it allows the creation of unique pieces impossible to produce in a different way.

So, PIXOM makes possible the creation of design pieces with new features, aesthetic principles and new/different materials, in other words, the optimization of existing products in the market trying to improve them.

## RESIDENCE

The origin of Residence lie in Germany, where the idea for Residence emerged in 1981. More than 30 years have passed since then – years in which the company has been able to develop its expertise and skills so that it now designs and manufactures the most exquisite decorative items and lighting for indoors and outdoors.

Residence offers a wide range of high-quality products in a selection of materials, including glass, crystal, metal, ceramic and wood. Its range includes ceiling and wall light fittings, table lamps, floor lamps and decorative indoor and outdoor items as well as tables, chairs, candle holders and railings.

With many years of experience, commitment and versatility using materials, Residence can manufacture lighting and decorative items according to the individual wishes and specifications of its customers.

## VICARA

Vicara is a Portuguese brand that develops products by exploring the frontiers of design.

Created in 2011, Vicara has already been recognized worldwide for unconventional and distinctive design approaches on unexpected materials.

Their commitment, in collaboration with Portuguese partners and designers, is to constantly search for innovative production processes, autochthon components and concepts that go beyond the established way of thinking.

# Nothing is Impossible

**Dimension**

The size does not matter. We produce...

**Quantity**

We produce in large quantities.

**Quality**

Not only produce. We guarantee quality!
